

LDN Sustainable Healthcare Academy

The LDN Sustainable Healthcare Academy, developed in partnership with the Centre for Sustainable Healthcare and Greener NHS, equips NHS professionals with the practical knowledge and tools they need to support their organisation's Green Plan.

In partnership with

ISEP
 Institute of Sustainability &
 Environmental Professionals

Course Content

This programme is designed specifically for NHS professionals who want to lead meaningful change. It will empower learners to become active sustainability champions who can identify opportunities, deliver impactful projects, and inspire others to take action.

Learners will benefit from collaborating with peers from NHS Trusts across the country. Guided by industry-expert Skills Coaches, they will gain the knowledge and practical skills needed to achieve success.

Learning units include:

- Foundations for a Net Zero Health Service
- Implementing your trust's Green Plan
- Project, change and culture management
- Driving sustainability with stakeholders
- Analysing and presenting data effectively
- Budgeting and building a business case

Programme

- Level 4 Corporate Responsibility & Sustainability Practitioner
- 20-month duration (including End Point Assessment)
- 5-month End Point Assessment
- Funding Band: £14,000

Who Is It For?

- Open to all NHS colleagues helping to drive sustainability within their trust.
- Learners must have the opportunity to put the skills and knowledge that they learn into practice through their existing job role.

Course Delivery

LDN's innovative blended delivery model and unique technology gives apprentices access to a range of learning content, one-to-one coaching, live sessions and opportunities to interact with their peers.
